Kim Beasley Jonesboro...let's be different. Let's bring an aquarium to this city for our kids to learn. We don't need more video games and movies. We need hands on experiences for our children.

Kim Beasley I also love the museum! But I could only pick one!

Tippy Boling All of these are great, but I have heard many people in Jonesboro discussing the need for an aquatic center/water park. This is something kids and adults can enjoy. If it is partially indoor, it can be used year round.

Marsha Brandon Parker We need a water park and let's be honest, we could use revenue from that and build everything on that list!! Our town is so great and growing fast but we need entertainment for our kids as well as visitors so my vote is water park/aquatic center.

Lynzee Heller As a mom I would love to have more places that I could take my kids.. an aquatic center/ waterpark would be amazing! I also think a children's museum would be very neat to have here. During the not summer months both of these would be great entertainment to beat the heat and have fun.

Lynzee Heller I also think it would be neat to have a kids gym like the Little Gym in Little Rock!

Carrie Dell Allen My son plays travel basketball and many of the towns we visit that are MUCH smaller than Jonesboro have wonderful aquatic centers. I have never understood why Jonesboro does not have such a facility. And combining it with a water park would draw revenue from a wide area.

Sarah King Water park!
Memphis zoo and museums are close enough that people would still go there for the day, and ASU has a petting "zoo". We already have a good park with trails.
A water park with an indoor pool/aquatic center like in tunica would be perfect. The Jonesboro Jets would have a place for swim meets as well as other swim teams, and people could have birthday parties there.

Kristin Cruz An aquatic center would be great for Jonesboro. My kids love to go to the one in paragould. It would be nice to have one here and bigger so people don't have to travel outside of Jonesboro to go to a water park. It would bring in more revenue if it was a good size one.

Alex Dean We need a water park. If some of the smaller cities in NEA can support a water park, then Jonesboro could too. We need to have more things for kids to do in town. There would be plenty of people from surrounding towns come to Jonesboro for something like this. Jonesboro is growing at a very fast pace, but kid friendly places are not.

[Like](#) · [Reply](#) · [Message](#) · 1w

Kayla Sue Davidson I feel that Jonesboro needs a community pool area like the one in Paragould but larger. Along with the pool we need a place that would give families things to do in the summer instead of driving to Poplar Bluff, Little Rock, and Paragould.

Amy Cole-Cook Water park/aquatic center. There are ones in Searcy, Paragould, and Pocahontas but Jonesboro doesn't have one which is crazy. It's time for Jonesboro to have and indoor/outdoor facility.

Felicia Lawrence Jonesboro doesn't have a city pool or anything like that.. During the summer teens and bigger kids have no where to swim and hang out in the water. You have to travel to Paragould. But having one in Jonesboro would be awesome. Schools around town could have swim teams and have competitions here locally.

Madison Dulin Aquatics center! Not only will it promote a healthier Jonesboro by getting people active, the medical community can use it for water therapy and increase quality of life for people dealing with arthritis and other ailments. It's also an amazing place for kids to have fun with their families! If it is made like Paragould's, or many other towns in the state, it can also be an option for family fun and exercise in the winter!

[Like](#) · [Reply](#) · [Message](#) · 5d · Edited

Erin Lynn Since "dog park" was not an option, I'd have to vote for the water park. We need something in the city that our youth can/will take advantage of more frequently. While a city museum and an aquarium would be neat to have, I don't know many kids/families who would spend the money to go multiple times a year for, mostly, the same attractions. A water park, however, especially if it's indoors, could have potential for regular visits for more than half of the year, and I would hope it would be cheaper than the IMAX/entertainment complex idea.

For purely selfish reasons, I'd want the outdoor park (like Craighead) on the north side of town, but the kids in our town need more options.

Victoria Selesky This was a hard choice....but I voted for Indoor Aquatic Center/Waterpark. I think it would serve a year round purpose! During the hot hot months when it's just not worth the risk to take the kiddos out to the splash pad, or in the winter when the weather is too cold and not ideal to be out we'd have an indoor option! My family would absolutely spend a lot of time there!

[Like](#) · [Reply](#) · [Message](#) · 5d

Randie Ingle Marthey I wish there was an "all of the above" option! I think if we started with a year round type of aquatic center/ water park, some of the revenue generated could help fund the other projects.

Fran Barnett Self Ennis I voted for an aquatic park because I feel like it would be the easiest "different" venue to bring to Jonesboro. We already know if it was done right and affordable, people would FLOCK to it because look how many people drive all the way to Paragould to go to theirs. Then I would say work on getting the more complicated things like a City Museum and an Aquarium. Just my opinion. We don't need any more restaurants. Lol

Madison Giles Jonesboro really needs an aquatic center. With two swim teams in town we need better pools. I know at one point one team had to stop accepting more team members because the pools in town are not big enough and do not provide what the teams need. Look at batesville. They host state meets etc. This would not only bring value for the citizens, but local USA swimming teams (Tennessee, Missouri, and Arkansas) which would bring revenue to Jonesboro.

Samantha Layne I voted for the aquatic park. We need more outdoor summer activities for all ages. There are few pools and the closest "water park" is Paragould which is small. We travel to Little Rock to the water park there and also enjoy the ones in Branson that are indoor. I just hate seeing the money leave the city.

Emily Sharelle Thompson I voted for the water park because growing up we would always have to travel out of town... I would love to have Dave and Busters but we have Hyginx and I believe as they have grown and expanded before they could always expand and grow again, it is already the entertainment for right now. We do need more and I believe that having a water park in Jonesboro would be a great addition to our community- for adults and children.

Brea Wilson Jennie Martillo Wilson we were just talking about this!

To be completely honest, we need something either different or completely revamped. I love the idea of having a Dave & Busters because for someone my age, it literally feels like the only options we have around here that's "age appropriate" is the movies & eating. I love Hijinx but I do feel a little outgrown. Also, IMAX is really freaking awesome. You could just put two together (; lol.

But I do feel like it would bring a lot of us from believing that Jonesboro is "boring."

Elishiba Maina With so many college students and young people in the area an entertainment venue would be so beneficial to add to Jonesboro! Other than restaurants there isn't a lot for young adults to go out and do here in town, so it forces people to go elsewhere to spend their money— Memphis, Little Rock, etc— so this could make a huge difference!

[Like](#) · [Reply](#) · [Message](#) · 1w

I truly believe an entertainment venue would make the world of difference when attracting new people to Jonesboro.

Erinn Spencer Entertainment venue. As a college town there are several restaurants to choose from however we seem to lack alot of personality when it comes to other things to do besides have a meal. We have Hi-Jinks and the movie theatre but we are missing some things even still. An offering of more entertainment choices will most likely allow us to stay local rather than feeling the need to venture to nearby cities- (Memphis, Little Rock) for a wider ranger of "things to do." All of the choices listed in the survey would be wonderful additions to the city, this is just the one I would be more passionate about overall.

Amber Stevens I think all of those amenities would be great!! I leaned towards entertainment venues over my second choice of water park because I think we could use the entertainment venue all year long. These venues could help give our teenagers and young adults options. The aquarium and children's museum would also be great options for field trips and educational activities for our children. All of these options would bring revenue and draw people that now travel to Memphis

Jazzalyn Noelle Gilmore Entertainment venue because we need more entertainment options, honestly. We have movie theaters in both Jonesboro and Paragould so unless it was a drive-in, I probably wouldnt do movies. Something like Dave and Busters would be amazing and I think it would draw a large crowd considering that Jonesboro is a college town.

My second choice was an aquarium/water park but I honestly think that unless it was a large attraction/exhibit, it would "grow old" or outdated quickly.

Sarah Huitt-Downs I chose the aquarium/petting zoo(except I would want it to be a bigger zoo). One of the reasons why I chose this is because I feel like the other options besides the entertainment venue would get old after awhile. It would bring a lot of people in yes, but if your child has been to something they have seen multiple times they are not going to enjoy it as much as something that will be constantly changing. I think if you would put in a aquatic center/water park it must be indoors for the most part because you won't be able to use it unless it's summer time. I think it needs to be a good mix of something that kids and adults will enjoy but something that will continue to change.

Rhett Raibley Aquarium/Petting zoo. We have a great park. A trail system is already being worked on, and will circle the whole city. There is a good museum on Astate's campus. We have a quality movie theater. A water park seems like a waste, and there is a small area at Craighead Forest Park with that stuff already. An aquarium/petting zoo would attract people during all seasons. What kid doesn't love seeing and petting animals?

So the aquarium could not only be for children but a real place for a nice wedding or weekend getaway. I feel it would create a lot of foot traffic to the town and put life back into downtown other than lawyers offices, bars, and boutiques.

They love the ASU museum, but you can only visit it so many times before they've "seen it all," so something larger and more geared toward children would definitely be something we would be interested in.

Amber Woods Jones The north side of town DESPERATELY needs an outdoor space like Craighead. We are an obese state and with better access to walking/biking/running paths and playground equipment for kids we can improve those numbers. We have no sidewalks or parks on this side of town and it's too far of a weekday drive to Craighead. Daily exercise is best!

Kassie Williams This is definitely a tough choice! In my opinion, Jonesboro feels least like the "natural state" of any other cities in Arkansas. We really only have 1 Park, and people on the north end may not have the transportation means to get over there. It's also annoyingly crowded during peak seasons. Being in nature is so important for young kids, and many on the north end of town live in apartments or have very small yards. If we care about quality of life for EVERYONE, we would create something free, that is easy to access.
